BACKGROUND

The Government of Nepal (GoN) formulated and endorsed the National Adolescent Health and Development Strategy (NAHDS) in 2018. The strategy addresses issues and challenges highlighted by the Nepal Demographic and Health Survey (NDHS, 2016). This brings attention to the widespread occurrence of adolescent marriage and pregnancy in Nepal, emphasizing the critical need to establish an atmosphere that promotes beneficial reproductive health practices among adolescents. In 2022, the GoN endorsed the Adolescent Friendly Reproductive Health Services Guidelines.

USAID Adolescent Reproductive Health (ARH) works with federal, provincial, and municipal governments in Madhesh, Lumbini, and Karnali Provinces to improve the reproductive health of adolescents aged 10-19 in Nepal, including marginalized groups. The goal of the program is to support Nepali adolescents to reach their full potential by choosing and practicing healthy reproductive behaviors together with the support of their community members.

SNAPSHOT

Life of Project: 2022-2027

Geographical Focus:

60 municipalities across 11 Districts in 3 Provinces: Madhesh (41), Lumbini (12) and Karnali (7)

Prime Partner: CARE Nepal

Consortium Partners:

HDI, Jhpiego, AYON, Nepal CRS Company

District Partners:

SAC Nepal Surkhet, DDS Salyan, RUDAS Nepal Rolpa, BEE Group Banke, MRDCC Pyuthan, Aasaman Nepal Dhanusha, CNRD Rautahat, BWSN Sarlahi, DDRC Parsha, Protection Nepal Bara, RYC Mahottari

USAID ADOLESCENT REPRODUCTIVE HEALTH

GOAL: TO SUPPORT ADOLESCENTS IN NEPAL TO REACH THEIR FULL POTENTIAL BY CHOOSING AND PRACTICING HEALTHY REPRODUCTIVE BEHAVIORS

APPROACHES

Multichannel Social Behavior Change

Adolescent-responsive Health Service System

Capacity Strengthening
